

Library Policy

Students and staff members must carry a valid identification card while accessing library facilities. Books and study materials borrowed from the library should be returned on or before the due date. Failure to return items on time may result in late fines or temporary suspension of borrowing privileges.

Silence and proper discipline must be maintained within the library premises to ensure a suitable study environment for all users. Mobile phones should be kept on silent mode, and group discussions should be conducted only in designated areas. Eating or drinking inside the library is not permitted.

Users are expected to handle books, journals, and digital resources carefully. Any damaged or lost material must be replaced or compensated by the borrower according to library regulations. Unauthorized removal of library resources or misuse of digital access facilities may lead to disciplinary action.
