

Refund Policy

Refund requests must be submitted within 15 working days from the original date of payment. Customers are required to provide valid transaction details and supporting documents while initiating the refund process. Requests submitted after the allowed period may not be eligible for processing.

Approved refunds will generally be credited through the original mode of payment. Depending on the payment provider or banking institution, processing may take between 5 to 10 business days. Administrative charges or service fees may be deducted where applicable.

Refunds for cancelled services, duplicate payments, or failed transactions are subject to internal verification procedures. Incomplete or incorrect documentation may delay the process. The organization reserves the right to reject refund requests that do not comply with the policy guidelines.
